

Talking Points for School Board - May 18th

The State of California and federal sources of revenue are not enough to provide the quality of instructional program to which our community has become accustomed. Since 2006 the voters of Berkeley have overwhelmingly supported BSEP as a means to partly make up for the lack of state funding and provide more and better educational opportunities.

These funds support

- 30% of the certificated teachers in the district keeping class sizes lower than in surrounding d
